

Weymouth Sea Life Centre

Leeson Polyurethanes' LeesonBound system has been installed into Weymouth Sea Life Adventure Park as part of their new outdoor adventure play area, Caribbean Cove. The seaside attraction has invested £500,000 to add to the family experience but also for visitors to learn about the importance of marine conservation.

LeesonBound PU4844/60 with the Golden Quartz 5mm, was laid along the walkways around the colourful rubber crumb surfaces and in the picnic areas. It clearly defines the pathways with a professional finish

and completes the project to a high standard.

Caribbean Cove is set to open to the public at Easter 2017.

LeesonBound Product: PU4844/60

Aggregate: Golden Quartz 5mm

Area: 300m²
